The application has been amended as follows:

In the specification,

As used herein, the term "phospholipid" refers to a molecule that includes a backbone attached to two fatty acid moieties and a phosphate group, to which an alcohol group may be attached. 2. The following is an examiner's statement of reasons for allowance: The above amendment brings the specification into compliance with 37 C.F.R. 1.58(a) by deleting the diagram from page 6. The text is amended to provide information equivalent to the deleted diagram.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
